## FRED FUNK LANDING COMPLETED

The newly renovated Fred Funk boat landing has re-opened and is providing motor boat access to those seeking to enjoy water recreation activities. New boat ramps, new docks and new lighting has been installed. The project was made possible by private and government funds. **Thank you to all who worked to make this upgrade a success.**

In effort to help offset the costs of maintaining the landings and keeping the latrines clean and trash collected, the Town is encouraging donations from boat ramp users at both the Mosey and Fred Funk landings. If you are a boat launch user, please consider making a user donation to keep the boat launches fee free so as to allow all people to access this resource. Donation boxes are located at each landing.

## Census 2020

**The census is more than just a head count. It provides a picture of our nation that helps determine development; distribution of federal funding; and apportionment of congressional seats, as well as providing an assessment of how our communities are changing over time.** Our nation's founders believed this data was so important that they mandated the census in the Constitution. Once every decade, the federal government conducts a census of the entire population in the United States.

In 2020 the U.S. Census Bureau will accept responses online, you can still respond by phone or mail if you prefer. Federal law protects your census responses. No law enforcement agency (not the DHS, ICE, FBI, or CIA) can access or use your personal information. Data collected can only be used for statistical purposes to help formulate decisions, including how much federal funding a community receives.

The Census Bureau **will never ask for your Social Security number, bank or credit card account numbers, for money or donations, or anything on behalf of a political party.** Learn more about the 2020 Census by visiting [www.2020census.gov](http://www.2020census.gov).

## Water Quality Sampling

Even if your drinking water looks, tastes, or smells good; it may still contain harmful bacteria and the only way to know is by testing. Water quality changes over time, so testing every year is recommended.

La Crosse County Health Department will be doing a water collection in May of 2020 and the Town of Onalaska will host a collection drive at our town hall.

Watch mail and the town website for details Spring of 2020.
